SUMMARY

I'm Sahil, someone who's always curious and excited to learn new things, I enjoyed building an apps and solving real life and DSA problems, Everyday I'll try to learn something new and get a little better at what I do, either making Ui/UX design or making backend side. I believe in growing through hands-on work and turning idea into something real.

PROJECTS

ChargeNG | Kotlin, Firebase (auth, storage, real time database), room, google map SDK, Retrofit, OpenWheather Api, + IOT integration

- ChargeNG is an app design to find the nearby Ev and CNG stations.
- Bulit using XML, Kotlin, Google map SDK, Retrofit and other tools.
- Include features like - real time update pricing and availability, booking, chat system, gamification and achievements section, online payment (google Pay), Smart Filtering.
- Implement with IOT to give the real time update about the connectors.

Revisly | Kotlin, Room, Retrofit, Render, Fast Api, Python

- An Android app to organize content (images, titles, links) from other-platform like Instagram, YouTube and Pinterest into a single interface.
- Implement the web scrapping with login-based access using tools like Instaloder and custom Fast Api.
- Tools used – glide, View pager, picture view, etc.
- Enable the cross-platform content viewing like Pinterest like view.

Budget Buddy | Kotlin, Room

- Budget Buddy is an app that design to keep track of your expenses, set budgets and track spending habits.
- Features include expense categorization, goal tracking and clean user-friendly UI.

TECHNICAL SKILLS

Languages - C, C++, Java, Python, Kotlin

Developer Tools - VS Code, Android Studio, GitHub

Soft Skills – Collaborative, Problem-solving, Curios Learner

Specialized Knowledge – DSA, Android Development, Firebase

EDUCATION

Diploma in Computer Science and Engineering

Mehr Chand Polytechnic College

📅 2022 – 2025 📍 Jalandhar, Punjab, India

CERTIFICATION/AWARDS

Mobile App Designing

1st place at GNA University, 2025

Project Display

1st prize in Punjab inter-poly TechFest (2025)

1st prize in Lyalpur Khalsa College (2025)

Participations in Hackathon

GNA Hackathon 3.0 - (28-29 March / 2025)

Code Crafter 2.0 - (10-11 April / 2025)
